## AWARD MESSAGE

Ajay, I wanted to take a moment today to recognize your efforts in developing automation scripts for addition of data files to new storage and restriction on old storage for SQL Server capacity needs. You developed initial code and collaborated with multiple partner teams to test and validate ESC automation. Your willingness to own the automation and continue to improve its functionality is commendable. This innovation is helping PEO SQL Server DBA's to work on capacity tickets with a greater degree of accuracy and the hope is that Capacity team will execute in self-service manner eliminating these tickets to PEO DBA Queue. Truly great work. Thank You!
